

Driver Management

Ryder offers you a cost effective and convenient one stop shop to manage your driver team on a day-to-day basis. We will develop a dedicated driver team to meet the needs of your business and grow as you grow. Your driver team will be inducted into your company culture and have ongoing training and assessment to meet your high standards.

"Ryder successfully provided both drivers and vehicles to meet our needs and allowed us to concentrate on our core business."

Gavin Bellamy, Production Manager

Description

Driver Management offers you the reassurance of transport experts to manage your driver team, allowing you to focus on the day job.

Driver Management includes:

- Continuity of driver service to ensure a smooth transfer of your driver team to Ryder.
- Proactive compliance management, including O'Licence, EU legislation and Working Time Directive.
- Support in managing your distribution more cost effectively, such as reducing the cost of accident damage.
- Substitute drivers to act as a flexible resource to meet changing demands and ensure consistent on time delivery to your customers.

Key customer benefits

Cost effective – to save you money

- Management of all driver related personnel administration, such as payroll and pensions.
- Support to help you manage vehicle repairs with substitutes if you need them.

High quality driver team – offering you reassurance

- Dedicated Driver Manager to provide you with constant support and expertise.
- Ongoing training and development of your own dedicated driver team.

Legislative support – ensuring your compliance

- Improve your safety performance with Health and Safety assessments and ongoing measurement.
- Develop and implement an individual strategy to ensure your O'Licence compliance.
- Proactively manage drivers' hours and maintain required records for the Working Time Directive.

Why choose Ryder?

Expertise – An expert and independent view of the market to support your decision making.

Support – Ryder has a range of products to support your business as it changes.

Partnership – We will work with you to develop and grow your business cost effectively.

Ryder can also help you with:

Transport Planning – A range of services to help you optimise the efficiency of your fleet and driver resource.

Flexible Warehousing – We offer a range of convenient and cost effective warehousing services, such as pre-retailing.

Vehicles – We can offer a flexible vehicle solution to meet your exact needs.
